

# Grace Francine M. Patricio

Information Technology Student | Web and Mobile Applications  
Las Pinas City, Metro Manila, Philippines | 0905 482 3465 | gracepatricioo@gmail.com

## PROFESSIONAL SUMMARY

Information Technology student at FEU Alabang specializing in Web and Mobile Applications, with experience translating manual business processes and system requirements into functional web and mobile applications. Skilled in Dart, Microsoft Power Platform, front-end development, UI/UX design, workflow automation, and developing digital solutions that improve and streamline business processes.

## EDUCATION

### Bachelor of Science in Information Technology, Specialization in Web and Mobile Applications

FEU Alabang | 2023 - Present

### Senior High School Graduate

University of Perpetual Help System Dalta - Las Pinas Campus | 2021 - 2023

## PROJECT EXPERIENCE

### National Vacancy Tracker | Individual Project | 2026

- Developed a confidential vacancy-management application for a large FMCG company using Microsoft Power Apps, Power Automate, and SharePoint Lists.
- Supports vacancy encoding/editing, centralized recruitment monitoring, bulk upload/actions, search/filtering, export, and recruitment progress tracking.

### ImprentaX | Capstone Project | 2026

- Developed an integrated system for a printing business with online ordering, sales monitoring, demand forecasting reports, in-app chat, automated inventory, and customer order management.
- Integrated PayMongo, authentication, and email notifications using Dart.

### Casa Carmina | WordPress E-commerce Prototype

- Built a WordPress e-commerce prototype featuring product listings, product pages, category browsing, and an online shopping interface.

### Baguette Bites | Web E-commerce Prototype

- Built a responsive e-commerce prototype using HTML, CSS, and JavaScript with menu/product displays, navigation, gallery, and contact pages.

## TECHNICAL SKILLS

- Microsoft Power Platform: Power Apps, Power Automate, SharePoint Lists
- Programming Languages: Dart, C++, Java, Python
- Front-End & Web Development: HTML, CSS, JavaScript; Responsive Web Design; WordPress
- UI/UX & Design: Figma, Adobe Photoshop, Canva
- Firebase; System-to-Web/Mobile Application Development

## CERTIFICATIONS

CyberOps Associate | 2026

Cisco Networking Certification | 2025

Embedded Machine Learning with Arduino - Certificate of Participation | 2024
